Shows off a 3D model of the solar system in the user's surroundings using ARKit.
- **CurrencyConverter** ([github.com/JenGoodridge/Currency-Converter](https://github.com/JenGoodridge/Currency-Converter), iOS, Swift):  
Allows users to convert between multiple different currencies on device.

## Work Experience

Ann Taylor Loft Sales Associate (Summer 2015)

- Helped design and organize store layout for efficient use of space and marketing
- Managed fitting rooms and directed employees to help streamline shopping experience for customers

J. Crew Sales Associate (Summer 2013)

- Responsible for managing store inventory
- Advised customers on fashion trends and aided in maximizing purchases based on current store availability and customer needs
- Worked with management to help track product loss due to theft or mishandling and minimize incidents of both

Ralph Lauren Home Sales Associate (Fall 2009–Summer 2011)

- Responsible for stocking and organizing store inventory
- Responsible for interacting with customers and ensuring a positive in-store experience
- Managed three cash registers and was responsible for their contents; worked with management to ensure appropriate handling of funds
- Trained new sales associates to give them the tools to help our store succeed
